DOMENICO

Reserva da Família Salton

Domenico – Reserva from Família Salton is our concept brand. Its name honors the immigrant Antonio Domenico, patriarch of the founders of Vinícola Salton, who arrived in Brazil in 1878.

They are special products, produced through experimentation, where winemakers are free to rethink the processes at each stage, and make small changes to express the uniqueness of each element involved, from the soil to the fruit, from fermentation to maturation.
